

Honouring women in *THE FIGHT* against overdose

WHA Women &
HIV/AIDS
Initiative

**International
Overdose
Awareness Day**

Today, and always, WHAI honours communities across Ontario in the fight against overdose. We stand in solidarity with Indigenous communities facing the discovery of thousands of unmarked graves. We are actively committed to fighting anti-Black, Brown, Indigenous and Asian racism. And we honour the strength of communities to care for each other in the face of these ongoing, intersecting crises.

**Together, we can
make a change.**

To learn more about overdose awareness, harm reduction and gender, check out WHAI's **Women & Harm Reduction: A Capacity Building Toolkit** or contact a local WHAI worker at whai.ca.
